THE REDCLIFF REVIEW

THURSDAY, OCT. 22nd, 1931

Number 34

Dramatic Competition Friday, November 6th

Prizes Given to Patrons Holding
The Lucky Numbers

At a special meeting of the central committee early this week, the date of the dramatic contest was definitely set for Friday, November 6th. Three judges from Medicine Hat have been selected to determine the best performance. Places on the program have been allotted as follows: First, United Church Dramatic Society in "In Honor of Bunt"; second, Anglican Church Dramatic Society, in "The Mock Bazaar"; third, the Red Cross Society, in "Fagin's Den."

Admission will be only 50c for adults and 25c for children. All tickets will be numbered and a draw will be made between the first and second acts, for a large box of groceries which will be purchased from local merchants and awarded to the holder of the lucky adult ticket. This will be followed by a draw for a cash prize of two dollars to be awarded to the holder of the lucky child's ticket. The sale of numbered tickets will positively close on Thursday night, November 5th. Patrons paying at the door, therefore, will have no chance on either of the two prizes.

ACT SAYS NOV. 11th IS A NATIONAL HOLIDAY

Armistice Day, November 11, will be observed throughout Canada as a public holiday, according to the Act passed at the last session of parliament regulating observance of the cessation of hostilities on November 11th. The occasion will be celebrated in the same manner as Canadian people celebrate Dominion Day, Labor Day and other national holidays. According to the meaning of the act, it was said Monday by the Secretary of State.

CANADA STOPS THE EXPORT OF OUR GOLD

Canada has taken official action to prohibit the export of gold except under license. The order came into effect Monday and will continue in operation until the 1st March, 1932 unless sooner amended or rescinded by competent authority. The action taken enables this country to discharge all its obligations which are payable in gold outside of Canada, particularly in the United States. At the same time, Canada will maintain the statutory gold reserve in security for Dominion notes issued.

THE PRICE OF WALES LOSES FINE CATTLE

Fire completely destroyed the two big cattle barns on the EP ranch of the Prince of Wales, last Monday night and burned to death the \$1,000 champion cow, Balcarim Lavender; the \$600 champion heifer, Princeton Lass; the \$600 yearling heifer, Princeton Jesse, and seven young bulls. The loss will be about \$18,000, with full insurance covering the buildings and contents and partial insurance on the animals.

Japanese officials branded as "deliberate untrustworthy" the announcement of China's decision to immediately withdraw all Japanese troops from Manchuria.

Elite Cafe Burned Down This Morning

Was Completely Furnished But
Nothing is Saved

The Elite Cafe, opposite the Review office, was burned to the ground at an early hour this morning. This was one of the most mysterious fires we have had in Redcliff so far. In the first place the building was completely enveloped in flames before any one noticed it. Text the fire broke out and it was impossible to sound general alarm and as a result, not more than a dozen men saw the conflagration and citizens were greatly surprised to learn the news when they went for their mail at the usual hour in the morning.

Although the fire engine was on hand shortly after the fire was noticed it was too late to be of any use as the building was all ablaze and the roof had fallen in.

The building, with all its contents of bedroom and dining room furniture, bedding, kitchen utensils, etc., is a total loss. Not an article of any description was saved.

The cafe was a fine two story brick building and it was completely furnished throughout. It belonged to Mrs. Van Wert and had been in operation as a restaurant and rooming house until a few weeks ago. It was Mrs. Van Wert's intention to move into it the following day.

The origin of the fire is a mystery as it is the most time to be the fire. There was some insurance on both the building and contents.

It would be hard to estimate the loss but it is thought to be between four and five thousand dollars.

30,000 CANADIANS PLACED ON FARMES

Through the co-operation of the Department of Immigration and Colonization and the colonization branches of the Canadian National and Canadian Pacific Railways, approximately 30,000 Canadian men, women and children have been placed on farms, either as laborers or owners, during the year ended September 30th, 1931.

How is your subscription?

The Review is a weekly publication, published every Friday, except on the day of the Dominion Day. It is published for the Review office, 1000-10th Street, Redcliff, Alberta. The price is 10c per copy, in advance. The subscription price is \$1.00 per annum, in advance. Single copies are 10c each. The Review is published for the Review office, 1000-10th Street, Redcliff, Alberta.

SCHOOL NEWS

The third meeting of the high school Literary Society was held last Friday afternoon in the presence of about forty visitors. After the reading of the school paper by Jim Moore, Mr. Dow gave a very interesting and educational talk on "Korea." This was followed by a current event match in which the boys demonstrated their superiority over the girls. In the musical competition which came next, the three judges awarded the prize to Sarah Davies who sang a sentimental song, Emma Podesta was a close second with a classical selection on the piano. The last item in the program was dramatization of Drinkwater's "Abraham Lincoln."

The next meeting will be held on Friday afternoon, October 30th, when prizes are being given for the best Halloween costume in the public school, the ugliest looking high school student and the worst song.

Rehearsals are well under way now for the play "Oliver Twist" which is to form part of the program in the dramatic contest early in November. This melodrama takes in about everything from a gun chewer's dance by Doris Blairbridge, to a murder.

Some of the instruments of the cadet band have arrived, and all sorts of weird noises might be heard around the building after school hours.

Arnold Hurlbert, who broke his arm while peeing a window at school a few days ago, is back again with his classmates. All of which goes to prove you can't keep a good Hurlbert broke.

Mrs. Beeler, Jr., is at present in the hospital where she underwent an operation.

Word has been received in town to the effect that a car load of apples and a car of vegetables are being shipped to this point for distribution among the needy of the town and district. The necessary machinery for distributing same, so as to avoid overlapping, has been set up and all interested will be advised when the goods arrive.

LONGEST PART OF ROAD WILL BE IN ONTARIO

Over one-third of the trans-Canada highway will be built in the province of Ontario.

Misage division between the provinces shows: Nova Scotia, 130; New Brunswick, 311; Quebec, 268; Ontario, 1386; Manitoba, 324; Saskatchewan, 487; Alberta, 303 and British Columbia, 528, in all a total of 3387 miles, of which Ontario has by far the largest mileage.

Investments Chosen by Head Office

SECURITIES that protect the principal and yield a regular income—selected with care by our Bond Department at Head Office—may be purchased through the Branch Manager.

IMPERIAL BANK OF CANADA

Additional Locals

Tea local Legion is preparing for its annual sale of poppies for this year. Full particulars later.

The United Church in the east is shipping 34 car loads of produce and clothing for relief in the drought areas in the west.

Senator Robertson has sent out word from the department of Labor, Ottawa, that no more new unemployment work must be started without getting approval from Ottawa.

Things are warming up in the general election in the old country, but the general opinion of the press appears to be that the Nationalist government will win out with a substantial majority over all parties.

A Conservative candidate in the election in the old country, was asked by a heckler: "why is there no unemployment in Russia?" "Because you either work or get shot in Russia," the candidate replied.

The ladies of St. Mary's Altar Society will hold their annual supper in the L. O. O. F. Hall on Tuesday, Nov. 17th. Adults 35c children 20c. There will be a wheel drive after supper to which the admission will be 25c.

With threshing operations completed in the south and nearing completion in central and northern districts, Alberta seems certain to harvest the average of 17.5 bushels of wheat to the acre, according to the provincial government summary just issued.

Miss Hagerman, a class nurse from Medicine Hat, will hold a clinic in Gordon Memorial school room on Wednesday, Oct. 28th, at two o'clock. Dr. Ward will be in attendance. All mothers are invited to bring their pre-school age children for examination. There will be no charge.

Keep in mind the Illustrated Lecture in Gordon Memorial Church next Tuesday evening, October 27th. The lecture will be illustrated by 130 colored slides of the Canadian Rockies and should be educational as well as interesting to all. Admission, Adults 35c, children 20c.

We are notified "that no definite arrangements have as yet been made regarding the securing of free freight on feed for the stock of farmers of the district, but are advised that matter is now being taken up with both provincial and Dominion governments. Some definite plans are expected shortly."

Have Australian Day In Alberta Schools

Hon. Perrin Baker Appoints
Friday, Oct. 30th

On Friday, October 30th, the curriculum in Alberta schools will be set aside long enough to permit teachers to substitute lessons having special reference to Australia, according to an announcement made by Hon. Perrin Baker, Minister of Education.

In making this announcement the minister said the province was falling in line with the Dominion government's idea of fostering trade between the two governments.

Recently, said the minister, as part of this scheme, a good will delegation from Australia visited this country and accounts of the journey through this country are said to have done much towards stimulating trade.

During the current week a ship from Australia is due to dock at Montreal and unload a cargo of Australian products, such as oranges, other fruits and manufactured goods.

On its return trip, starting next week, it will carry Canadian products, not usually grown in the land "down under."

On the "Australian Day" program in schools, it is expected teachers will tell something of the discovery, early history and settlement of the country as well as giving the significance of the national flag and a talk comparing the systems of government operating in the two countries.

With the Canadian dollar at 88 on New York, United States cattle buyers are coming north again to buy dairy and feeder stock. The advantage the present depression in Canadian funds affords just a little more than offsets the U.S. tariff barrier which has kept them at home for some time past.

Churches

ST. MARY'S CHURCH
Celebration of Mass every Sunday of each month except the first Sunday, at 8:30 a.m.

BAPTIST CHURCH
Sunday Services: Sunday School and Bible Class at 11 a.m. Evening Service at 7:30. Thos. Mulligan, Minister.

ST. AMBROSE CHURCH
Rev. Malcolm Stewart, vicar 8 a.m. Holy Communion. 10 a.m. Sunday School. 1st and 3rd Sundays: 11 a.m. Choral Eucharist. 2nd, 4th and 5th Sundays: 11 a.m. Mattins and sermon 7:30 p.m. Evensong and sermon.

GORDON MEMORIAL UNITED CHURCH
Pastor Rev. R. Erskine Pow Sunday, October 25th, 1931. 10 a.m. Church School. 11:15 a.m. Morning Worship subject: "Thought that leads to action."

3 p.m.—Bowl 7:30 p.m.—Evening Worship. Subject: "Truth in the street." "We need the Light of the Gospel to see Life Steadily and to See it whole."

Land South of C. P. R. Created Pound District

Set Aside For Horses And
Cattle of The District

The late Alberta Gazette says that that portion of the province bounded on the north and east by the Canadian Pacific Railway running between Calgary and Medicine Hat, on the south by the south Saskatchewan River, on the west by range 10 and the Canadian Pacific Railway running between Buffalo and Vauxhall, be and is hereby established a pound district; further that the term "resident" as mentioned in the Act be defined as "any resident settler within the confines of the above described area who is authorized by the Tilley East Area Administration to run his or her stock at large within the confines of the above described area, and in such numbers as from time to time may be decided upon;" and further that the class of domestic animals permitted to run at large within the confines of his pound district be and is hereby restricted to horses and cattle, and that the pound be enforced from the first day of January to the 31st day of December, both dates inclusive, and each and every year.

CHINESE ARE WARNED NOT TO ORGANIZE

Chinese in Canada who are reported to be planning the organization of an expeditionary force to fight against Japan have been warned by provincial police that such activities would be violation of Canadian law. It is illegal in this country to organize an military expedition except under the auspices of the Canadian government.

WEST TO ASK FOR A GASOLINE PROBE

Attorneys-general of the west provinces will study the possibility of pressing for an investigation into gasoline prices under the Combines Act.

This was decided on Monday at a conference of the premiers of the four provinces which discussed unemployment relief problems, suggestions for curtailment of expenditures and other matters of interprovincial importance.

TWO WESTERN PROVINCES LOSE THEIR CASE

The provinces of Saskatchewan and Alberta lose their fight to have the Dominion account to them for lands alienated by the Dominion before September 1st, 1905, when the province came into being.

The Judicial Committee of the Privy Council, dismised, with costs, the appeal of the province of Saskatchewan from a ruling of the Supreme Court of Canada, when the Supreme Court favored the Dominion.

The province of Alberta was associated with Saskatchewan in the appeal to the higher court.

A good thing to remember, A little thing to do, Is work for the construction gang. And not for the wrecking crew

Drought Problem

Commission Is Investigating Ways and Means To Help West

Saskatchewan is grappling with the drought problem. To study and provide for the conservation of water within the province, in an effort to prevent such a condition as now prevails a drought commission has been appointed. The necessity for similar provision by the provinces of Alberta and Manitoba, in which the drought area has extended this year, seems urgent. Scientific study of the question as affecting all the prairie provinces and the devising of practicable methods of relief, appears a pressing western problem of the moment, as moisture is undoubtedly the element in crop production that has been neglected.

In this connection the Winnipeg Tribune, which recently made the suggestion that a drought commission be appointed, says:

All the water that runs off the prairie provinces in the spring, or even a reasonable percentage of it, may be conserved, there would be no dry years in Western Canada. The trouble is we have drained the soil and the lakes and muskegs, and have neglected to provide any means in the way of substitutes for the reservoirs that have been destroyed.

The prospect now is that we will have to dam the western rivers and creeks and provide great artificial lakes to hold the water we have, both with the purpose of raising the water level in the subsoil and of creating rainfall.

Millions of trees if set out in selected areas would serve the same purpose to some extent. The more trees, the less we will suffer from drought conditions.

Throughout Canada, the recommendations of the Saskatchewan Drought Commission, and the decision of any investigating bodies that may be named by other prairie provinces in the hope of averting national calamities as have followed three dry years in portions of Western Canada, will be eagerly awaited.

Attention may well receive the serious attention also of Manitoba and Alberta.

Control Of Truck Traffic

Seek Uniform Regulations On Inter-Provincial Highways

Uniform regulations for the control of bus and truck traffic on inter-provincial highways is proposed by the National Government.

Hon. A. C. Stewart, Minister of Highways, will make strong recommendations before this convention of the Good Roads Association of Canada to be held in Lacombe, Quebec.

Uniform regulations in each province to govern the whole matter of passenger and freight traffic over provincial highways will be recommended. Saskatchewan, according to the Minister of Highways, has taken the lead in the western provinces in the matter of regulating this traffic. The introduction of high grade highways increased the traffic to such an extent that regulations were brought down a year ago.

Placing The Blame

Uncle Dan, centurion, and estate, is a possessor of a little Carolina fawn. One day, while he was drawing his regular dose, his present patron took occasion to rally him good humouredly on not being worth the cost of his sipper; in fact, of being lazy and no-account in general. "Yes, sah, I expect that's right," the old man agreed. "But it ain't my fault. I remember the day when your grand-pappy paid \$1,000 for me, and then Mr. Lincoln came along with the 'maniculation' prohibition and made me just plain worthless."

Grape Crop Smaller

The Niagara district grape crop is not going to be as bountiful as at first estimated, according to the Ontario Growers' Council. Mid-season for the crop is now placed at between 15,000 and 21,000 bushels, a drop of some 15,000 bushels from the original estimate.

"My brother is only happy when he's quarrelling." "Then why doesn't he marry?" — Eben Halloway, Madrid.

Save Big Trees In B.C.

Montreal Conservationist Deplores Ruthless Destruction Of All Old

Frank J. D. Barjum, of Montreal and Annapolis, N.B., completed the purchase of another virgin tract of "big trees" in the Seaboard district of Vancouver Island, in order to prevent their being sacrificed to the axe. This is the second tract purchased by Mr. Barjum and the fourth tract purchased by him and his friends.

One tree measured by Mr. Barjum had a circumference of 33 feet, is 11 feet in diameter at the stump and is estimated to be some 900 years old. He pointed out that consequently it must have been more than a sapling at the time William the Conqueror invaded England.

"How anyone can ruthlessly cut down such age-old giants as this, especially without any profit to the operator, is beyond my conception," he said.

The cost of reproducing a tree of this size and age would amount to many billions of dollars, compensating for the standing cost alone without figuring taxes or any other charges."

Build Scenic Highways

Undertaking May Provide Work During Winter Months

Unemployed men in the national parks and from parts of western Canada will be given work on the proposed Lake Louise to Jasper scenic highway this winter. The number of men to be employed is unknown. The proposed road, if completed, would be the most scenic on the continent.

Twelve surveyors left Banff for Lake Louise recently, and it is expected they will make camp north of the famous resort. It is also believed that the chief engineer of the Canadian National Parks, at present in Jasper, is making arrangements for surveying the northern end of the proposed road, which would be 100 miles long.

The road would wind through the woods immediately east of the main camp of the Canadian Rockies, passing the Columbia Icefield, which covers 150 square miles.

Tax Hits Blacksmith

May Have To Increase Prices For Grooms Wedding

The economy programme of the National Government of Britain has struck the famous "wedding blacksmith shop of Grooms Grooms."

The romantic smithy and its attached museum heretofore have been assessed at annual valuation of about \$125. The assessment for this year was about \$4,500 and the prospect was that the smithy would have to increase its prices for its easy and quick marriages or go out of business.

Women Make Good Pilots

But Less Capable Than Men Opinion Of Air Authority

"The air rivalry between the sexes has been carried a stage further by the announcement that the 10,000th Royal Aero Club aviator's certificate has been granted to a woman," says The Manchester Guardian.

"Many women are now in training to become air pilots," an air authority said in a reporter, "but whether the number of women will catch up with men is a matter for the future. Women make very good pilots because they have a very light touch, but I would not say they are as capable as men in an emergency, because they do not seem to have that self-command which a man possesses. They are liable to lose their heads. The majority of women who fly are young people who find aviation a fine way of passing their spare time."

Right At That

Teacher—How many days in a year, Johnnie?

Johnnie—Seven.

Teacher—Wrong. There are seven days in a week, but how many in a year?

Johnnie—Seven.

Teacher—No! How many days in a year?

Johnnie—Seven, Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and if there are any more I've never heard of them.

Latest census figures show that the world's greatest capitals are London, with 8,202,818 inhabitants; New York, with 6,981,927; Berlin, with 3,332,034; and Paris, with 2,571,429.

A flawless emerald is the most highly prized gem stone.

Started In Small Way

Exhibitors Of Inventions At Paris In Annual Event

Twenty-six years ago, when M. Louis Leprieux was Prefect of Police, in Paris he was accosted on the Grand Boulevard by a street hawker, who wanted to sell him a toy of his own invention. The Prefect was not interested in the poor man's story that he straightaway decided to hold an exhibition every year at which people who invented and manufactured toys would find a market for their wares.

The Concourse Leprieux, as the fair is known, has grown until it has become one of the most Parisian features of the year, and where at the beginning it numbered only 100 exhibitors, it has this year in the Exhibition Park of the Porte de Versailles almost two thousand.

To wander by the stalls is to see on the faces of the poor inventors all their hopes and fears. To most of them the toy, household article, mechanical device or novelty, has meant the work of a year, perhaps a lifetime. Success at the Exhibition means all the difference between poverty and modest riches. Knowing his patronage, and whose families roll up to the entrance prepared to buy something, if not for themselves, at least for some kiddy.

It is wonderful what the minds of the inventors have conceived in the way of toys. Aeroplanes, engines and fire trucks, automobiles, motor boats and steamers, emulate the real things with a precision which is almost uncanny. And out of them all there is at least one idea which will add to the progress in machinery.

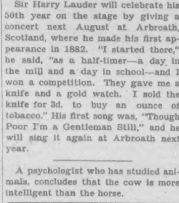

Among the household stuff, the outstanding invention is a Table-Bed inspired, no doubt, by the smallness of the modern apartment. Anyway, a Frenchman never likes to be too far away from his meal, even if he has to sleep with it. And in that he is not alone.

Lauder Will Celebrate

Sir Harry Lauder will celebrate his 50th year on the stage by giving a concert next August at Arbroath, Scotland, where he made his first appearance in 1882. "I started there," he said, "as a half-timer—a day in the mill and a day in school—and I won a competition. They gave me a knife and a gold watch. I sold the knife for 3d. to buy an ounce of tobacco." His first song was, "Though Poor I'm a Gentleman Still," and he will sing it again at Arbroath next year.

A psychologist who has studied animals, concludes that the cow is more intelligent than the horse.

HUNDREDS DEAD IN BRITISH HONDURAS HURRICANE

Press reports from British Honduras report that untold havoc has been wrought by a hurricane which has wiped out the entire town of Belize. Houses in this once tranquil town are now in ruins while others have been washed away by the sea. More than a thousand persons are reported dead. These pictures show two views of the capital of the little colony.

BRITISH MENACE

The women's national golf championship of the United States has taken on the aspect of an international affair since the entrance of Emily Wilson (aka British champion, Miss Wilson) will prove a hardy opponent for Glenna Collett Vare, who is ambitious to win the title for the fourth consecutive time.

The women's national golf championship of the United States has taken on the aspect of an international affair since the entrance of Emily Wilson (aka British champion, Miss Wilson) will prove a hardy opponent for Glenna Collett Vare, who is ambitious to win the title for the fourth consecutive time.

Postpone Transfer Of Mounted Police

Authorities Still Hope To Find Missing German Soldier In North

Because the authorities feel there is still a faint hope of finding alive the German soldier Krueger, missing since the spring of 1930 in the wilds of Axel Heiberg Land, they have deferred for another year the proposed transfer of the Royal Canadian Mounted Police post from Bache Peninsula to Crag Harbour, according to word brought back by the steamship "Bochice," which arrived at Sydney, N.S., recently, from the north.

Canada Will Recover First

"Canada is perfectly certain to be one of the very first countries to weather the storm and recover from the present depression," declared Julian Piggott, managing director of the British Steel Export Corporation, in an interview at Ottawa. "We all feel that in England," added Mr. Piggott, who was the guest of Sir William Clarke, British High Commissioner.

Electric Washers

Old Hand Type Machine Rapidly Passing Into the Discard

It is evident from a recently issued official report that the hand-powered washing machine is rapidly passing into the discard in Canada. Of the 86,054 electric machines made in Canada last year, 67,571 were electric machines, 10,388 for operation by other power, and 8,133 were hand machines. The total value of the 86,054 machines was \$9,391,711 of which the electric machines accounted for \$8,697,068, other power machines for \$440,831, and the hand machines for \$143,792. The use of electric power for a variety of domestic uses is becoming rapidly more general throughout the country. In abundance of water-power, from which most of the electricity used in the Dominion is generated.

U.S. Well Declined

Factor In Depression

Says France and U.S. Must Disperse Gold Accumulation To Bring Back Normal Conditions

Until the accumulated gold surpluses of the United States and France are dispersed there is no hope of an end to the present depression, Bernard K. Sandwell, F.R.S., of Montreal, told the Canadian Club at Winnipeg.

The depression, he said, was due to the fall in prices. The decline in prices was due to the method of collecting war debts which caused the accumulation of \$8,000,000,000 in gold in France and five billions in the United States.

"There is a total of \$11,000,000,000 of gold in the world," he said, "and at least four billions is doing no work as money."

Canada should detach the dollar from the gold standard, Mr. Sandwell said, and place it at a value representing its purchasing power between 1922 and 1927.

"The Canadian dollar in 1921 was down to 76 per cent. of the United States or gold dollar," he said. "We can do the same again with no danger and no more disturbance."

Rumanian state railways have just launched a programme of extensions.

Moving picture magazines in Canada, charged with offences under the Combines Act, were sent up for trial this week.

Mr. A. E. Oakland, who has been in England for the past few months, returned home to Redcliff last Tuesday.

Mr. and Mrs. H. Champ and son, Ed, who have been visiting in England for the past few months, returned home on last Tuesday's train.

"Bluenose," the Canadian boat owned in Halifax, is again sailing camps of the North American fishing fleet. She won two straight races from the U.S. challenger this week.

Mr. Frank M. Ballard, of the Truro district and Miss Alice E. Welsh, of Suffolk, were married last week end. Miss Jorawski and Mr. W. Nowaczak, of Alderson were married at the same time.

EATON'S Fall and Winter Catalogue is Now Distributed

If you are a Customer and have not received your copy, please drop us a post card

No lower prices are in sight than those presented in EATON'S Fall and Winter Catalogue, grade for grade.

Should the market become more favorable on any particular item, we undertake to fill orders at the improved price.

THE CONSUMER PAYS

The most economical way to ship merchandise is by freight.

Do you realize that 100 pounds mixed merchandise can be shipped to central points in Alberta by freight for 2.19, and this sum pays postage on only 25 pounds to the same points?

A great help to reducing prices lies in customers' hands. Make your order up to 100 pounds or over and have your shipment go by freight.
